	the milling industry in Yugoslavia has until recently attained its target figures to the full 100 percent. Lately, official mention has been made of a 73.3 percentage performance. Within the Yugoslav Communist Party, however, it has been admitted that even this is a faked figure which does not correspond to the facts, and the following reasons for the defective operation of the Five Year Plan in this respect have been given:

- 4. In addition, 4,925 cubic meters of firewood were ordered recently from Goce near Kraljevo for delivery over a period of three months to local flour mills. The amount delivered in this period amounted only to 1,731 cubic meters.
- 5. The mills are suffering from scarcity of spare parts. As the latter are mainly of Hungarian and Czechoslovak manufacture no relief can be expected and some of the machinery is being dismantled to provide spares for other mills.
